DETAILED ACTION

Response to Amendment

1. Amendment filed July 2, 2007 has been entered. Claims 3-5 are pending.
Claims 1-2 are cancelled.

2. Applicant's arguments filed July 2, 2007, have been fully considered but they are not found persuasive.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 3-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Newly amended claim recite the terms "a mixture of C50, C200, and C1000 dilution" which is vague and indefinite because it is not clear what the terms mean. One skilled in art usually uses metric concentration terms. Furthermore, it is not clear what the term "a mixture" means in terms of the dilutions since it seems to require all the concentrations dilutions recited.

Claim Rejections - 35 USC § 102

Art Unit: 1646

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 3-5 are rejected under 35 U.S.C. 102(b) as being anticipated by Le et al. (US 5,698,195).

Le et al. disclose anti-TNF antibodies used for treatment of rheumatoid arthritis (columns 34-38). Le et al. teach numerous method of therapeutic administration with different dosages (column 36).

Applicants argue that antibodies are highly dilute as amended. However, the terms are not clear as discussed in the above rejections for 35 USC 112 paragraph 2. Furthermore, Le et al. discloses the different doses (column 36).

5. No claims are allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

Art Unit: 1646

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
